FORKLIFT SAFETY GEARS

Forklift Camera System

Our BEAST Branded Wireless Camera Systems Have Been Engineered Specifically For Reach Truck, Forklift Applications. Our Camera Systems Not Only Improve Operator Efficiencies, But Also Increases Work Place Safety. Forklifts Are Inherently Dangerous Pieces of Equipment, Mix That In With Pedestrians and Operator Blind Spots and You Have A Recipe for Disaster. Our Wireless Cameras, With Continuously Recording DVR, Can Help Reduce Accidents And Product Damages.

LED Forklift Safety Lights

Help prevent dangerous collisions between warehouse vehicles, pedestrians, and other vehicles with LED forklift safety lights. Multiple LED safety lights can be mounted to warehouse vehicles, the lights can be seen from behind, in front, or on the sides of your vehicle. Unlike audio warning systems that can blend in with ambient noise or be tuned out over time; LED safety lights project bright light patterns on the floor that are clearly visible, increasing productivity and efficiency in industrial settings. Our lights come in a variety of in-stock, ready to ship beam patterns and colours to fit any need. They are also made of high-quality shatterproof housings and come backed by an industry-leading lifetime warranty.

Blue LED Forklift Safety/Warning Light with Sequential Flashing Arrow Beam Pattern

Blue LED Forklift Safety/Warning Light with Sequential Flashing Arrow Beam Pattern

Red LED Forklift Safety/Warning Light with Sequential Flashing Arrow Beam Pattern

Forklift Red Light - LED Safety Light with Line Beam Pattern - Single

Green LED Forklift Safety/Warning Light w/ Arc Beam Pattern

Flashing beacon, back-up alarm
