## Who we are?

We are a team of designers and engineers having expertise in landscape projects execution and designing. Our Spatial design team has expertise in combining the principals of both interior and Landscape design and do focus on harmonizing the interior and exterior spaces. Our focus is on the essence of garden, and the distinctive elements that can make your garden special and unique and make a perfect relation between house and garden.

## Our vision and mission

At Exteriofy Landscaping & Pools LLC our objective is to help improve and protect Client's Property, develop and maintain the best and cost-effective landscape in a professional manner in order to establish a level of trust through result-oriented landscape improvement.

The Vision of Exteriofy Landscaping & Pools LLC is to expand our services throughout UAE by working as team with Construction and Landscaping companies in order to avoid missing of even a small opportunity from their valuable clients and enable them to provide a turnkey solution starting from Design interior and exterior of villas and large scape commercial buildings.

Fit out and Landscape solutions to get a high end look on a tight budget.

## Health safety and environment

At Exeriofy the safety of our human resources the public and the environment is our top priority. We are committed to a safety management system that complies with both local and international standards and constantly updated in terms of objectives and indicators.

Our HSE division trains each member of our team on safety policies and practices to ensure implementation in each project. The safety management system is documented in a HSE manual which is studied during the operation protocol of each project.
